GRAPHOLOGY

It is a scientific method of identifying, evaluating, and understanding a person's personality via the strokes and patterns revealed by his handwriting.

GRAPHOTHERAPY

It is a process of changing your handwriting to positively affect your personality.

WHAT HANDWRITING REVEALS ?

Handwriting reveals hundreds of elements of the person's "personality and character," which include glimpses into the subconscious mind, emotional responsiveness, intellect, energy, fears and defenses, motivations, imagination, integrity, aptitudes, and even sex drives and issues of trust. There are over 100 individual traits revealed and an unlimited number of combinations.

WHO CAN USE HANDWRITING ANALYSIS ?

- Individuals for self-improvement.
- Single people to aid in the selection of compatible partners.
- Couples to improve their relationships.
- All people of all ages in the work force for career counselling.
- Employers for personnel selection.
- Psychologists for personality evaluation and therapy.
- Parents to understand their children better.
- Professional sports persons for mind programming through Graphotherapy

ENFOLD THE PERSONALITY

Get A handwriting sample of the person to be analysed on a plain A4 sheet.

Steps to collect a Handwriting sample.

- 1. Make the person write a minimum of 10-15 lines using his natural writing.**
- 2. Use a ball point pen for the handwriting sample**
- 3. The handwriting sample should include 4-5 capital I**
- 4. Now spread the Mind Reading Cards on your desk.**
- 5. Match the traits you see in the cards with the handwriting sample.**
- 6. Go through all the handwriting patterns from A- Z.**
- 7. And here you are all set to get a primary reading of the basic personality traits.**
